ARCHIE COT

AUSTRALIA AND NEW ZEALAND (AS/NZS 2172:2013)
RECOMMENDED MATTRESS SIZE 1300mm x 690mm x 130mm

This cot has been manufactured for use with a mattress which measures 690mm wide by 1300mm long and 130mm in thickness. The width and length are specified because it is important that the gaps between the mattress and the sides and ends of the cot will not exceed 40mm when the mattress is pushed to one side or end, and 20 mm when the mattress is centred in the cot. This is to minimise the risk of a child's limb becoming caught in the gap. The thickness of the mattress has been specified to ensure that the depth of the cot is greater than 500mm with the mattress base in the lower position to minimise the risk of a child climbing or falling out of the cot.

• Follow the manufacturer's assembly instructions in detail to ensure the safety features of the cot are not compromised.
• Ensure the cot is placed at a reasonable distance from curtains, blinds, heaters and power points. *Keep cot free of any toys, cushions etc that could be used as a foothold or present a danger of suffocation or strangulation.
• Keep medication, String, elastic or small items such as money out of reach from any position in the cot.

CARE INSTRUCTIONS:
• Clean furniture by lightly wiping the surface with a soft dampened cloth.
• Do not use strong house hold cleaners and avoid using hot liquids.
• Avoid contact with sharp edges or objects.
• Do not expose future to strong sunlight, direct heat sources, extreme changes in temperature or moisture.
• When moving the furniture, lift into piece do not drag.
*If you are experiencing a problem with this product please contact the Adairs Retail Group via the following available methods.
